

## Our Online Pharmacy is now open!

We now have online pharmacy services available for you!

We have developed a relationship with a very reputable online pharmacy, in order to provide you with a convenient, quality service providing you with the ability to purchase your pet's medications online at very competitive prices. Because our hospital is a shareholder in this company, we can provide these quality products, sourced directly from the American companies who manufacture them. This relationship means that any all product quality guarantees remain in force and you can trust that no international or federal import or tax restrictions have been violated to bring you these products.

Visit [www.myvetsmeds.com](http://www.myvetsmeds.com) to shop for your pets medications. After you have placed your order, the dispensing staff will call our office to verify the instructions for your medications and your order will be on its way!

Call us at 334-279-9100 if you have questions about these pharmacy services.

Advantages of ordering your pet products and online pharmacy items from us:

- Competitive pricing compared to 1800petmeds and other popular online pet pharmacies.
- Avoiding shipping fees when your order is over \$37!
- Quality guarantee on all products ordered, just as if you purchased it in our office!
- Intact manufacturer's product guarantees and rebate programs! This is NOT available from PetmedExpress and others!
- Reminders on when your prescriptions are due for refill.
